

Week's Objectives, Deadlines, etc

Mon Objective: Describe the attributes of graphs and the general equations of parent functions (linear, quadratic, cubic, absolute value, rational, exponential, logarithmic, square root, cube root, and greatest integer).

Work: Take careful notes.

Tues Define the transformations, and explain their effect on the parent graphs.:

Work: Sect 3.2 (p 142) 6 - 11

Wed Objective: Use transformations to describe how two graphs are similar.

Work: Sect 3.2 (p 143) 13 - 25

Thu Objective: Use transformations to sketch graphs based on their parent graphs.

Work: Sect 3.2 (p 143) 28 - 34

Fri Objective: Solve real world problems involving graphs.

Work: Sect 3.2 (p 144) 38 - 42
